Felicia Joanna Sutjianto

Management Associate at Citi
Jakarta

Summary

Felicia is a mathematics student who is a high-achiever and neat-handed person with high curiosity and eagerness to explore new things.

Throughout her time in university, she has had 6 professional experiences, chaired 2 student-led organisations, won 3 competitions, and received 2 international-level awards which proven her passion in business, innovation, and applied mathematics.

Her experiences as a student researcher at the United Kingdom and consultant in both international and national-scale business consulting projects have shaped her to be a problem solver who is resourceful, team-player, and creative.
